20 Years of Success

Re/Max Partners
is one of the best offices,
but don't take our word for it,
ask our agents...

Tina Villegas

I started working at Re/Max Partners as an assistant to a Top producing agent. After 3 years I decided to try my hand in the mortgage business for 3½ years. I then made the decision to become a Realtor and knew that the only office I wanted to work at was Re/Max Partners. I have now been here for 14 years as a full time Realtor! I'm constantly reminded how incredible Harold Wasson is as a broker, mentor and advisor. With all his experience and knowledge, he continually amazes me with his support and coaching, which motivates and gives you peace of mind! I always come out of his office ecstatic to work under such a knowledgeable broker unlike most offices. I hear often from other Agents in other offices about not having broker support and the time frame it takes to process their closed file. Here at Re/Max Partners the process is quick and painless. This market is always evolving and you must be on your game! I know that with Re/Max Partners their doors will be always open! They have celebrated their 20th year in the business! I am honored to work with a solid and top producing office. As a professional, in the real estate business my clients expect the best...and so do I! Therefore the reason Re/Max Partners is my home!
